WORK EXPERIENCE

UI Developer

Evive Health Software Analytics

07/2017 – Present

MyEvive is a personalized website that uses secure, cutting-edge healthcare technology to help people live healthier lives.

Achievements

- Active development of web & app in React and React Native with Optimized clean code and test driven development
- Solely Developed UI of many internal projects from inception

PROJECTS

MyEvive (07/2017 – Present)

- This tool allows employees to access their accounts for many of their employer's insurance plans from one place.
- Created reusable UI components using React and Redux.
- Created website layout/user interface by using standard HTML/CSS.

iBot (05/2018 – 02/2019)

- It is a tool used for infra automation tasks, administration tasks as well as for pulling data tasks.
- Whole UI was written solely from scratch in old school Vanilla JS and JQuery.
- UI was written hooking along with Python's Jinja template engine. It was written in reusable component manner (without react!)

Lost and Found (Hobby/Side Project)

- <https://github.com/SummySumanth/lost-n-found>
- Built up Node Server and ReactJS based frontend from scratch !
- Personally built boilerplate used.
- Implemented Json Web Tokens (JWT) for authentication along with AuthO for Social login and MongoDB.
- Implemented continuous integration & continuous deployment (CIDI) with CircleCi and Heroku.

EDUCATION

Bachelor of Engineering in Computer Science

JNN College of Engineering

07/2017

INTERESTS
